 COBOD

COBOD BOD2 PRICE LIST

At COBOD, our commitment to pushing the boundaries of construction technology is evident in our BOD2. The BOD2 is a 3D printer designed for future construction, showcasing the combination of advanced engineering and innovative design.

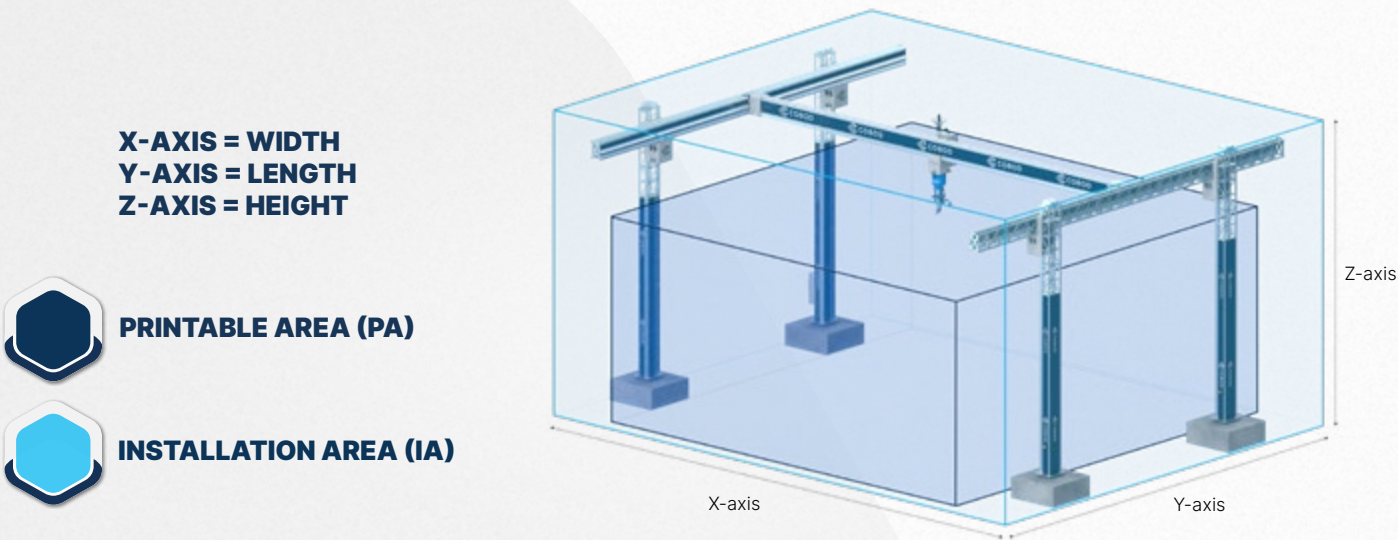

The BOD2 is developed with a strong emphasis on modularity, ensuring adaptability to a wide range of construction requirements. Our price list reflects this modular structure, simplifying navigation and enabling stakeholders to efficiently identify their ideal printer configurations. The standard dimensions for the installation area include a 600mm concrete base height. It's essential to highlight that the dimensions exclude the Single-sided Alu Top Structure and the Full Alu Top Structure, both of which add an extra 1.52m in height and are detailed separately.

The BOD2's design reflects our commitment to both quality and innovation. A central feature, the BOD2 Advanced Hose Management System (AHMS), comes as standard equipment. Seamlessly integrated into the X- and Y-axes, the AHMS efficiently secures material hoses within E-chains, moving in sync with printhead movements. This enhancement not only streamlines the 3D printing process but also reduces manual interactions with material hoses, ensuring safer and more efficient and automated operations.

Beyond its evident utility, the AHMS exemplifies our continuous drive to implement new advancements. Although it's a testament to our technological expertise, the AHMS is merely one dimension of the broader capabilities the BOD2 offers. For a comprehensive understanding of the BOD2's capabilities, we suggest consulting our regional sales experts.

While COBOD takes immense pride in the technology we provide, it's crucial to note that our responsibility lies solely within the provision of technology as per our defined terms and conditions. We do not assume liability for the 3D printed structures produced using our technology.

Should you require additional information, clarification, or wish to discuss opportunities with COBOD, our dedicated professionals are at your service.

PRINTER CONFIGURATION PRICE EXAMPLES

BOD2 2-2-2

Recommended for Universities and Material Lab Testing

Installation Area:	8.59 x 5.55 x 5.88 m
Printable Area:	4.51 x 3.95 x 3.49 m
Total printing area (1 floor):	17.81 m ²

325,000 EUR

BOD2 5-5-3

Recommended for Small and Medium Projects

Installation Area:	16.16 x 12.63 x 8.40 m
Printable Area:	12.09 x 11.53 x 6.02 m
Printing area per floor:	139 m ²
Total printing area (2 floors):	278 m ²

421,000 EUR

*Including the Full Alu Top Structure

BOD2 5-8-4

Recommended for Large Projects up to 3 Floors

Installation Area:	16.16 x 20.21 x 12.45 m
Printable Area:	12.09 x 19.10 x 8.54 m
Printing area per floor:	231 m ²
Total printing area (3 floors):	692 m ²

611,000 EUR

*The listed dimensions include the necessary installation heights for the Full Alu Top Structure in the BOD2 5-8-4 example. All configuratons with 4 Z-modules in height can be provided with Full Alu Top Structure free of charge if requested.
